06 – 08 November 2018 • Messe Stuttgart, Germany

Organised by
 Reed Exhibitions

WE CONNECT MATERIALS AND EXPERTS

LIGHTWEIGHT TECHNOLOGIES FORUM

A flexible format for a dynamic market to open up new target groups in existing and new segments

Lightweight construction offers great potential for innovations for different application industries. With the Lightweight Technologies Forum COMPOSITES EUROPE has established a special area, a platform for knowledge transfer as well as the status quo of the current development in the field of multi-material lightweight construction.

Under the patronage of
 Federal Ministry for Economic Affairs and Energy

Sponsored by

(as of September 2017)

Are you working in the field of multi-material lightweight construction and are interested in using this platform to present yourself?

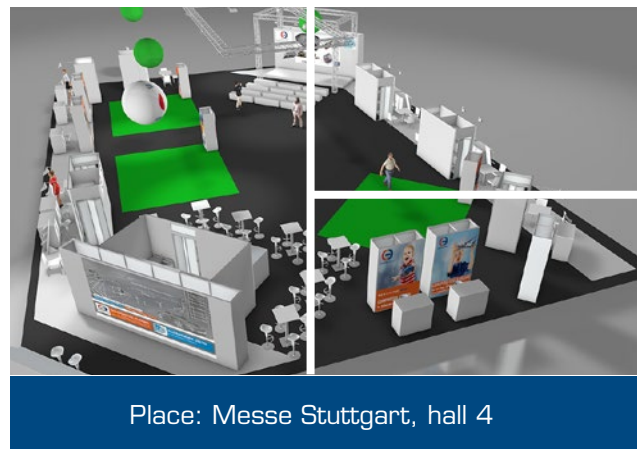

This is the ideal concept for you! The Lightweight Technologies Forum includes a **forum**, a **networking area** and various forms of **product presentation**.

Meet decision makers, who deal with the topic lightweight construction and reach out to an individual target group. Choose from different presentation opportunities and find your optimal concept.
